FULL BIO

SUSH 28 is an independent R&B, pop and hip-hop artist, songwriter and producer based in Seattle, WA. He was born in Mysuru, India, and has been singing since age five.

As a kid he did Indian classical music and sang in a choir. Later he started recreating his favorite songs in GarageBand. At some point he asked himself why not, and began writing his own music.

Today he writes every song himself and produces most of them, and he keeps creative control over the mixing and performance. His sound moves between R&B, pop and hip-hop and stays raw, honest and rooted in personal experience. His influences include Juice WRLD, SZA, Kanye West, The Weeknd and Tame Impala.

He has released 40+ original songs, including scrollin, 24 and Miracles (feat. Yash Varde). scrollin is a song about longing for someone while distracted by social media. He has also made music videos and worked with other artists, and he has played 10+ live shows, where audience energy isn't optional.
